Without shoes stand up straight with head facing forward and arms to the side. Measure from the top of the head to the floor. The person's height will determine short, regular or long fitting.

- 170cm (5'7) – 183cm (6'0) Regular
- 183cm (6'0) – 198cm (6'6) Long

2 / CHEST (cm)

Place the tape well under the arms, straight across the back, over the shoulder blades and over the chest, insert finger between tape and body and allow freedom of fit. The measurement is taken with the coat off.

3 / WAIST (cm)

Place tape around body just above hip bones. Insert finger between tape and body and allow freedom of fit.

4 / NECK (cm)

Place the tape around the neck at the height the collar would be if buttoned. Measure with the shirt collar unbuttoned. Insert finger between tape and body and allow freedom of fit.

5 / SLEEVE LENGTH (cm)

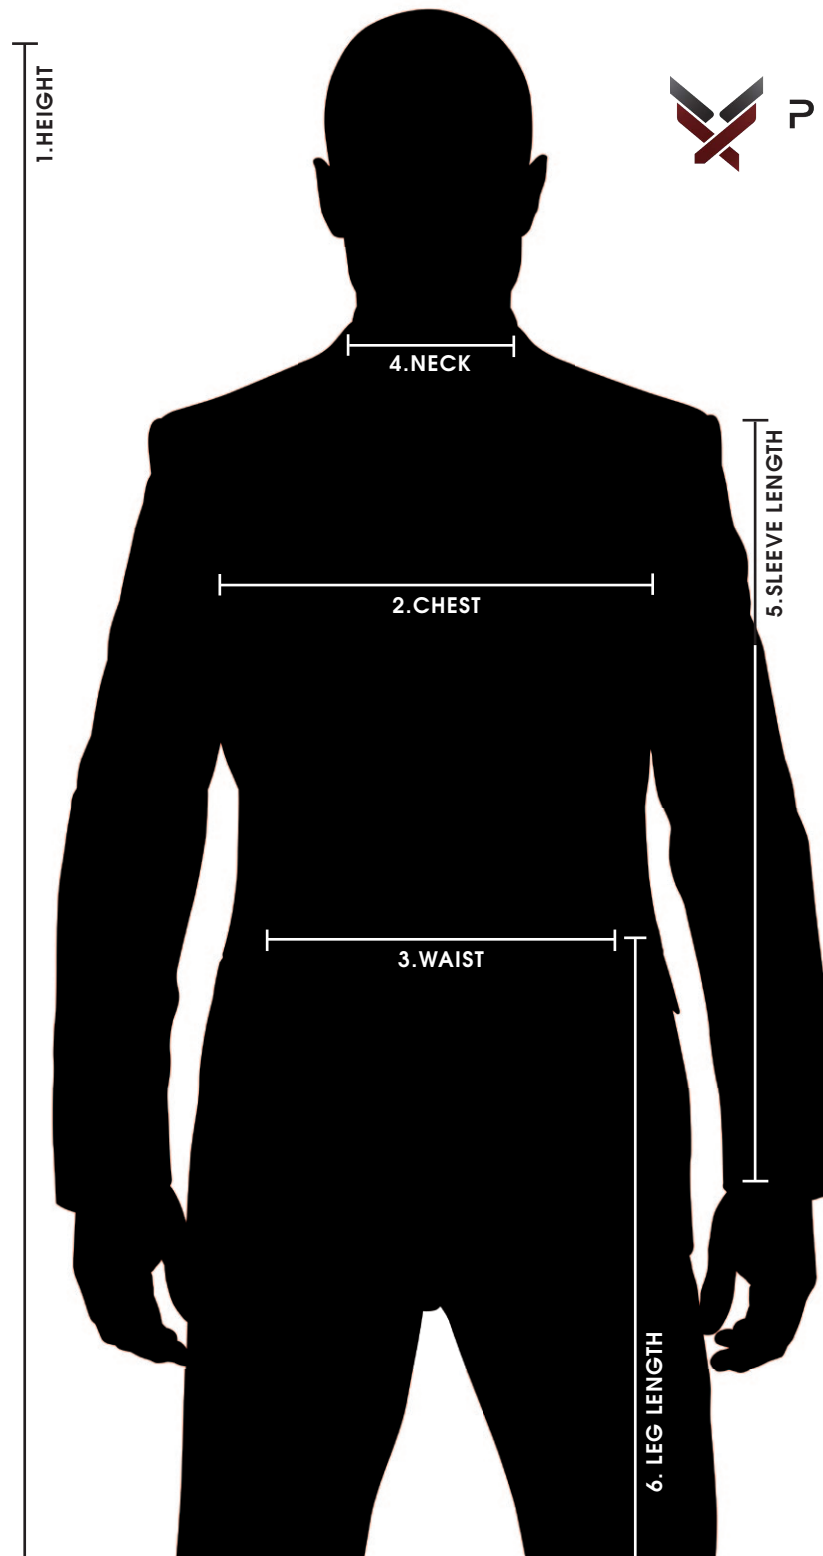

With the arms straight down at the sides, place tape at the seam where the shoulder meets the sleeve. Run the tape straight down to a point 2cm below the wrist bone. This measurement is taken with the coat on.

6 / LEG LENGTH (cm)

Stand with feet together and trousers up on the waist (the waist centres on the navel). Measure from the top of the waist to the floor without shoes on.
